

# A horse, a rider, the right saddle: the perfect match.

*A story written for horses,  
by riders.*

This is a story that began in Italy: it originated with Roberto Rasia, founder of Erreplus Saddlery, and what makes it unique is his incredible passion for the equestrian art, with 25 years of experience.

Now a whole team of experts, champions and technicians writes the story of Erreplus every day, giving voice to that perfect dialogue that indissolubly links the life of horse and rider.

SL saddles have been specially designed, together with technical experts in the field, to free the most muscular and pronounced shoulders.

They feature a short panel that completely avoids any kind of pressure at scapular level, thus ensuring a perfect movement of the shoulders.

All this while maintaining a large contact area on the horse.

## Leather care

### Leather Cleaner

The only cleaner that contains an acidity regulator to fully respect the integrity and elasticity of the leather. / code: ERRCLE

### Leather Balsam

Designed to respect natural leathers, to maintain the pigmentation of the leather and to ensure proper maintenance of the saddle for a long time. / code: ERRBAL

## Stirrups guard bag

This new nylon bag has been designed for crossing over the saddle pommel the mono stirrups leathers and stirrups after riding, protecting in this way the saddle from scratching due to the sand left overs.

This innovative stirrups bag has a zip pocket in the middle containing a small brush to clean the stirrups from sand after riding making easier for the rider to maintain the saddle in the best conditions.
